Seed, pkt. 20c. Plants, 35c doz.

MILOT-MILLS EARLY MONEY PLANTS

Our plants are all from high grade seed. Varieties are those that do best in this section. For early plants, seeds are first planted in the greenhouse, transplanted into flats, then hardened off in cold frames, which makes for a hardy, sturdy plant. These plants will come into bearing two to three weeks before any other plantings. It pays to plant early money plants. Early Cabbage are ready March 15th and on. Tomatoes, Peppers, Egg Plants are ready May 1st and on. Late planting and delivery of Cabbage, Celery, Tomatoes, in quantities are much less in price. Write for prices. See descriptions below. The following prices include 2% State Sales Tax.

BUSINESS TERMS AND HOW TO ORDER

All prices in this catalog are for cash f.o.b. Wenatchee. Mail orders sent C. O. D. when not accompanied by cash. Be sure to include 2% State Sales Tax, and transportation charges.

Unless otherwise requested, your order will be sent parcel post, unless too large, then by stage or express collect. The average postage on small orders amounts to 10c to 15c, larger orders 20c to 50c. Orders sent out within twenty-four hours.

We reserve the right to ship orders at the proper season for planting if ordered too early, unless shipment is demanded. Everything in the catalog cannot be shipped at once.

Any errors, or claims for refund, must be made within 24 hours of receipt of merchandise.

OUR GUARANTEE

While we exercise the greatest care to have all our stock run true to name, however, it is mutually understood and agreed to between the purchaser and ourselves that should any stock prove untrue, we shall in no case be liable for any sum greater than that originally received for such stock that may prove untrue, besides, we will not be responsible for the crop. All orders are booked only under the above conditions.

MILOT-MILLS COMPANY, INC., Box 16, Wenatchee, Washington

Unwin Dahlias

New, dwarf, single and semi-double flowers. Grows to about 18 inches and blooms profusely till fall. Colors are fascinating, especially in the large single type. 15c each; 4 for 50c.

Pansies always have been a great specialty with us and we are justly proud of the quality and trueness to type of our strains. Pansies succeed best in rich, well-drained soil in a sunny position, and produce their finest flowers in the cool, early days of spring. Keep flowers picked during the summer, plants pinched back, and you will get a nice lot of flowers again in the fall. For earliest blooms, seed indoors. Buy our hardy plants. 50c dozen.

HARDY PERENNIALS

When you once plant a perennial it is there to stay year after year. You simply clean and cultivate the beds each year, and they continue to grow and bloom.

AQUILEGA, or Columbine—Giant long-spurred, many colors.....10c each; 3 for 25c
ARCTOTIS, or African Daisy—Autumn shades, fine for border.....15c each; 3 for 30c

Modern Landscaping

EVERGREENS FOR YEAR ROUND COLOR

Evergreens give a gracious and dignified appearance to the home ground, which can not otherwise be produced. They blend delightfully with the landscape in summer. About foundations and at entrances they afford a pleasing effect in color and form variation.

Every evergreen has its place and after it is planted should be kept sheared or pruned so as to keep it uniform and not allowed to grow too large. With proper shearing an evergreen can be kept at a uniform size for years. This work should be done by experienced men and at the proper season. This also holds true of deciduous shrubs. In order to keep the foliage on all evergreens and shrubs a nice deep green, applications of fertilizer should be given. Evergreens also should be kept well watered for the first two or three years, and like other plants they need spraying to keep in check scale or any other insects that might attack them. Certain sprays should be used on evergreens.

Consult our Landscape Department. We are always at your service.

FLOWER, GARDEN, and FIELD SEEDS

INSECTICIDES, SPRAYERS, PET FOODS, ETC.

Artichoke

Tubers—Ask for prices.
Green Globe, Pkt.....10c

Asparagus

1 oz. to 100 ft., 4 lbs. per acre.

When starting an Asparagus bed from seed, it is advisable to soak the seed for 24 hours before planting.
Washington Rust Proof—Pkt., 5c; Oz., 15c; ¼lb., 35c; Lb., \$1.00.

Beans

Dwarf Beans, 1 lb. to 100 ft., 50 to 60 lbs. per acre
Pole Beans, 1 lb. to 100 ft., 30 to 35 lbs. per acre
Lima Beans, 1 lb. to 100 ft., 30 to 50 lbs. per acre
Plant Beans after all danger of frost is past, in warm, dry, well prepared soil. The rows should be 2 to 3 feet apart and the seeds well covered 1½ to 2 inches deep.

Shallow cultivation should be frequent until blossoming; then stop to avoid injury to the roots. Root injury causes the blossoms to fall off. For succession, plant every 2 weeks until midsummer.

SOIL-SOAKER

All the Water Soaks In

SOIL-SOAKER, new hose-like waterer of special porous canvas, screws to the water hose, replacing nozzle or sprinkler. The far end is closed. Under normal pressure, water seeps through every pore, the entire length, soaks directly into the soil. No spray—no waste—no excessive evaporation. Easily moved without shutting off water, or getting wet.

No. 0	12 feet	2-in. (flat)	\$1.00
No. 1	18 feet	2-in. (flat)	\$1.50
No. 2	30 feet	2-in. (flat)	\$2.50

“TWIST-EMS”

The New Handy Plant-Tie

“Twist-ems” are dark green strong tapes with wire reinforcing that make perfect plant ties. No twine or raffia or shears needed. For annuals, perennials, shrubs, vines and vegetables.

Cel-O-Glass

Better than glass for poultry houses. Comes in rolls 3x100 feet. Sells for 40c per running foot, and \$1.20 per square yard.

For Growing Healthier Plants

VITAMIN B₁

(Pure Crystalline Powder)

Amazing new growth stimulant and invigorator for garden and house plants, roses, shrubs and trees. Reports indicate almost miraculous results with Vitamin B-1. Produces larger blooms and more luxurious foliage; reinvigorates root growth; restores sick and straggly plants to health; decreases mortality from transplanting; aids germination of seeds and growth of seedlings; gives lawns increased vigor and improved color.

SPECIAL HOME GARDEN KIT

Contains VITAMIN B-1 (pure crystalline powder); basic solution vial; special dropper; measuring pick and full directions. A season's supply for the average garden. More economical than tablet or liquid form.

Complete Kit \$1.00 Postpaid.

GRAFTEX

A scientific grafting and dressing compound. Graftex protects the plant in every respect—goes 50 per cent further than old-style grafting wax.

Half lb. can.....50c Five lbs.....\$4.25

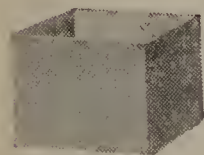

ADCO

ARTIFICIAL MANURE

Mixed with leaves, cuttings, vines, weeds, straw, cornstalks, etc., ADCO converts them into rich, real manure, sanitary, odorless, and free from weeds. This is REAL manure, and is full equal to the farmyard product in fertilizing power but free from foul odor, flies, etc.

7½-lb. Pkg., \$1.00; 25-lb. bag, \$2.50; 100 lbs., \$8.50.

HORMODIN

ROOTS PRODUCED AT WILL

Hormodin stimulates rapid root growth on cuttings at low cost.

Hormodin Powder and Hormodin Liquid are root-inducing chemicals which stimulate rapid root growth on cuttings. Many plants formerly impossible to propagate from cuttings may now be rooted with the aid of Hormodin.

HORMODIN POWDER

Since different plants require different treatment, Hormodin Powder has been developed in three strength, paralleling the range of hormones in nature.

Powder No. 1. A general-purpose powder especially good for carnations, roses, poinsettias, chrysanthemums, and similar types.

Powder No. 2. Designed for many of the woody and semi-woody types.

Powder No. 3. Designed for the more resistant species including evergreens and dormant leafless cuttings.

The treatment is simple. The moistened stems are dipped into Hormodin Powder, then placed in the usual propagating medium.

HORMODIN "A" LIQUID

The liquid form of Hormodin is applied as a dilute, water solution. It offers the possibility of treating cuttings with any desired concentration at a cost of only a fraction of a cent per cutting.

Complete directions with plant name list, and a convenient measuring vial are included in each package.

5 cc.....\$1.00 15 cc.....\$2.00

Hormodin Powders

No. 1 for soft wood cuttings.....50c

No. 2 for medium cuttings.....75c

Petamine

A Complete Balanced Diet to be Fed Daily Throughout the Year.

What Petamine does for Canaries: Peps them up, increases song; adds color and sheen to feathers and keeps them in fine, vigorous condition.

Restores lost song and feathers and cures many ailments when due to faulty diets.

Makes moulting easier and faster and plumage more brilliant and colorful.

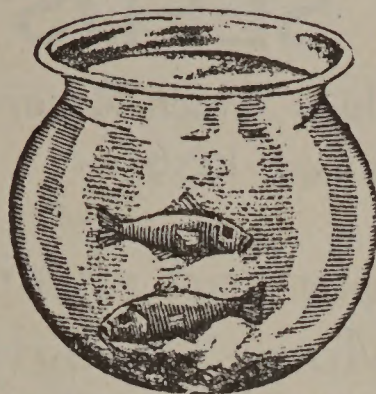

Works wonders during breeding season, produces more fertile eggs, finer, sturdier young birds.

Petamine may be used as the exclusive diet or with mixed whole seeds. Recommended for all cage birds. 25c. Net weight five ounces.

NEUTRALIZER FOR OUTDOOR POOLS

It is absolutely harmless to fish, snails or
vegetation and can be used when fish are
spawning as it will not injure the fish eggs or
young fish.

The powder should be poured directly into
the pond in a line around the edge. About five
pounds is required to clear the average small
pond, 4x6 feet. If the proper amount is used
the water will become clear within 24 hours.
The heavy algae when it becomes loose can be
removed by hand or rake. Price, 5 lbs., 50c;
10 lbs., 95c; 25 lbs., \$2.00.

Milot-Mills Lawn Grass Mixture

Blue Grass and White Dutch Clover.

Such as was used to make the Chelan County
Court House lawn, the lawn at the ball park,
the lawn at the golf course, the lawn at the
hospital in Soap Lake, also the lawns around
the many beautiful homes in Wenatchee and
North Central Washington.

Sow one pound for a plot 10 by 20 square
feet (200 sq. ft.).

Milot-Mills Lawn Grass Mixture. Lb.....50c
White Dutch Clover. Lb.....\$1.00
Shady Lawn Mixture. Lb.60c

How to Have a Good Lawn

Spade the ground as deep as possible and
turn several times to see that it is thoroughly
pulverized. Work in a good commercial fer-
tilizer. Sheep guano or peat moss will add hu-
mus and improve the seed bed. Rake level and
water thoroughly so the ground will settle.
The seed bed should be allowed to stand for
about two weeks, watering from time to time
so the weed seeds will sprout.

Roll the ground before seeding, to prevent it
from settling unevenly, and then rake the sur-
face lightly. Sow the seed so as to cover the
ground thoroughly, and then cover it lightly
with soil. Roll again so as to press the seed in
firmly.

If a lawn is made during the summer, the
ground should be covered lightly with peat
moss after the seed has been rolled, so as to
retain the moisture.

MILOT-MILLS LAWN GRASS SEED

Makes a beautiful velvety lawn in 40 to 60 days.

SHADY PLACE LAWN GRASS and CREEPING BENT

Sow one pound for a plot 10 by 20 ft. (200 sq. ft.)

We contract lawn work either old or new. Landscape and rock-work, tree surgery and pruning. Let us figure with you.

Work into the ground around your plants, Vigoro and Peat Moss. It is a garden need. Peat Moss by the bale or sack. Vigoro by the ounce or pound.

The home is not complete until it is surrounded by a beautiful lawn, shrubs, trees, evergreens, and flowers properly placed.

Should you not find what you want in this catalog, please make your request and we will gladly secure it for you.

Our Greenhouses and Gardens are always open to visitors and we shall consider it a pleasure to show you around.
